HELLO

We are Lucas and Chris from North Blinds: your local, independent family run business providing made-to-measure window blinds, curtains and shutters. Together with our small team we cover all of Yorkshire and Lancashire – no distance too far!

North Blinds was established in 2018 and since then we have fitted blinds in over 2000 homes! We are a 'one stop' consultation, measuring, installation and after-care service and are proud to help our customers find the perfect window covering to achieve the stylish look they want at home.

We work around the clock to bring you the best products and the best services at affordable prices. Being independent allows us to work with a large number of suppliers bringing you a wide range of options. Lucas is constantly searching the market to save you money without compromising on style and quality.

At the heart of our North Blinds team are our customers. With the right blinds and window dressings, a room can be transformed into something truly special. We are passionate about helping you create an inviting lounge or modern kitchen space that reflects your unique style – so let us help make it happen!

IT'S ALL ABOUT YOU!

We know what a difference the perfect blind and window dressing can make in a room, helping bring together your vision of a luxuriously cosy lounge or modern, clean cut kitchen space. We want to use our passion for blinds and curtains to help you achieve this.

That's why we do **EVERYTHING** we can to save you the stress and hassle of trying to find the right blinds, and instead bring everything to **YOU** along with our expertise to help make it a very easy choice!

ROLLER BLINDS

"Very pleased with the service provided by Northblinds. The advice given was very helpful and after only a couple of weeks the fitting was arranged and carried out seamlessly. I'm very pleased with the end result."

Roller blinds are the most popular of all blinds; extremely versatile and very easy to use

Simply a length of fabric wrapped around a cylindrical tube, they fit at the top of your window either inside or outside your window recess depending on your preference. They come in all manner of colours, patterns and sizes and are operated by a side-winding chain mechanism using a cord attached to the end of the blind casing. They can even be motorised!

DAY AND NIGHT BLINDS

If you're looking for a blind that gives you more control over light, enabling you to let more in or gradually filter it out, then Day and Night Blinds are for you.

They operate in the same way as a Roller Blind, with a roller at the top and the blind controlled by a chain or remote control if motorised. You can roll the whole blind up or down so your window is fully exposed or fully covered.

Day and Night Blinds consist of a continuous loop of fabric, with alternating translucent and solid horizontal stripes. Adjusting the position of the stripes allows you to control the amount of light filtering through. You'll have full control around the clock, allowing you to set the mood whatever the weather!

"Excellent from start to finish. Very professional and friendly guys. Came round promptly to show the different styles. Gave guidance but definitely no pressure. Very competitive pricing. Quick turnaround and blinds now fitted. They gave quality service and I would highly recommend."

Simple, stylish and easy to use, Roman Blinds are a popular choice with our customers. Their varied range of fabrics, patterns and colours makes them suitable for almost every window type. A highly versatile solution.

The softer, more gentle design of Roman Blinds with the flowing fabric folds can be a calm and cosy addition to your room. There are plenty of colours and patterns to choose from so let your creativity fly! Team it with a blackout lining to give you that perfect darker bedroom.

Soaring fuel bills mean we are all more conscious of the need for better insulation in our homes. The design of Roman Blinds means that they are particularly efficient at keeping draughts out and trapping warmth in. Their superior thermal insulation qualities mean they're not just a pretty blind.

ROMAN BLINDS

“

Fantastic service from start to finish. Very quick responses, a beautiful product and expert fitting. Also absolutely lovely guys and extremely well priced. Thank you Lucas and Chris.

WE CAN OFFER HUNDREDS OF TAILOR-MADE DESIGNS AND COLOUR OPTIONS, FROM SEE-THROUGH AIRY VOILE TO RICH AND WARM TEXTURED FABRICS WITH THERMAL BENEFITS. THE MECHANISM FOR OPENING AND CLOSING YOUR BLINDS CAN ALSO FEATURE DIFFERENT TYPES OF CHAIN OR STRING ACCORDING TO YOUR PREFERENCES, INCLUDING A CHILD-SAFE OPTION.

VERTICAL BLINDS

Vertical Blinds are the perfect solution for large areas of window. You can enjoy the view from your window when you want to, or choose privacy and sun protection when you need it. These types of blinds are simple to look after as each louvre can be cleaned easily and replaced individually if necessary.

Vertical Blinds are popular in offices, but thanks to our massive selection of colours and patterns we can also help you choose the perfect vertical blind for any room.

Thanks to their simple design and easy operation, Venetian Blinds have become a popular option, especially where extra shade or privacy is required.

We offer three types of made-to-measure Venetian blinds:

VENETIAN BLINDS

Wooden Venetian blinds

Perfect for people who love natural products, these put the beauty of wood to work on your windows at a price you can afford.

Faux Wood Venetian Blinds

Faux Wood Blinds are extremely durable and highly resistant to potential damage from water. This makes them the perfect choice for hot and damp rooms like kitchens and bathrooms. What makes them even better is they look like natural wood so you'll struggle to tell the difference and your window will look super stylish and modern!

CORDLESS FAUX WOOD VENETIAN BLINDS

Our revolutionary cordless Faux Wooden Blind is a simpler, safer alternative to the traditional chain and cord blind-height adjusters.

Simpler and lighter because of the spring assist which allows you to raise and lower the blind by hand; safer because it replaces the dangling loop choke hazard of a normal venetian blind's mechanism. So perfect for anywhere that's reachable by children or small pets!

Thermal pockets and an aluminium coating mean that Pleated Blinds not only look great but also help with shade and insulation. The fabric is attached to aluminium rails and sits closely to the window glaze. The blind can be moved to any position over the window making them perfect for any room.

“

Excellent service from start to finish. These guys show up when they say they will, are polite and friendly, give no-pressure, professional advice and have fitted our new blinds quickly and perfectly. What's not to love!”

Rosie R.

“Faultless service and great price. All purchases should be like this.”

PERFECT FIT BLINDS

Made to measure, these run within a frame around your window allowing you to slide the blinds up or down. Fitted to the frame there is only minimal light gap between the blind and window, creating a darker sleeping environment for afternoon naps or those light summer evenings.

Being cordless, Perfect Fit Blinds are also super safe for your little one's room, removing any choking hazard that comes from chain or cord operated blinds.

BLACKOUT BLINDS

The name speaks for itself really! The effectiveness of your blackout blind can vary depending on the type of blind you choose and where it's positioned in the window space. Light can filter in through gaps at the top or sides of the blind. The smaller these gaps, the darker the room will be. For a complete blackout you want a blind that fits snugly into or across your window with no gaps at the top or sides. Bear in mind how dark you want the room when you're choosing your blinds.

Blockout blinds are designed using side rails, brush seals and a rubber bottom seal to effectively control the light. With so many different blackout blinds available, we'll help you select the style, colour and pattern you want.

“

Highly recommended company!! Great customer service and efficient installation with no disruption to your home. Far better than well advertised suppliers on cost and quality.”

BLINDS FOR BAY WINDOWS

Do you have a bay window in your house but not sure how to go about choosing the best blinds or window dressings for it? Each bay window has its own characteristics, so what might be best for your bay window may be quite different to what would work next door and you want to make the most of your beautiful light space.

We will help you to choose the right blinds to control privacy and filter natural light the way you want.

BLINDS FOR DOORS

You are in control - our blinds can be opened from top to bottom, or from bottom to top!

No compromise, perfectly fitted to your door frame so you can still fold your doors just as you wish and enjoy the view.

Stay Cool - our blinds are thermally insulated so you can stay cool in summer and warm in winter.

Don't let the cold weather outside stop you being snug inside! Make your conservatory a haven all year round with our specially designed blinds.

Thermal control blinds contain heat pockets that allow you to control the temperature of your room by trapping in extra warmth over the winter months.

In the summer, perfect-fit conservatory blinds fitted to your door frame means there's no loose fabric blowing in a breeze, giving you perfect shade all day long. Sky light blinds complete the look, giving maximum shade even in those tricky corners!

BLINDS FOR CONSERVATORIES

MOTORISED BLINDS

Having trouble covering a larger window? Struggling to reach a skylight? Then motorised blinds are for you. Their smooth operating mechanism and sleek cordless design mean they're easy to use and super safe.

Adjust your blinds at the touch of a button. You don't even need to get up off the sofa!

We offer:

- Roman motorised blinds
- Day and Night motorised blinds
- Roller motorised blinds
- Skylight motorised blinds, also solar powered
- Pleated motorised blinds
